

NANO MISSION
Call for Applications
for
Nano Science &Technology (NS&T) Visiting Associateship

Target Group: Faculty in Degree/Post-Graduate Colleges and Universities.

Objective: The objective of Visiting Associateship programme is to enable College and University teachers, especially from less-endowed State Universities, to academically network with scientists in leading institutions in the country through a flexible and administratively convenient contact programme. This will help bring them into mainstream research, help them utilize state-of-the art facilities and establish long-term academic contacts.

Number of Visiting Associateships: Upto 5 in at any given time

Applications are invited for Visiting Associateship in the project entitled 'Nanomaterials in catalysis, drug delivery and sensing applications' for a period of 3 years.

Each Visiting Associate would spend 3 months every year (in at most two trips) for 3 years to pursue research with Prof. S.K.Mehta (Programme Coordinator) and Prof. S.K.Kansal (Co-Coordinator) and their collaborators at Panjab University, Chandigarh. The selected Visiting Associate will be provided travel support (round trip economy air fare for each trip) plus a fellowship of Rs. 10,000/- per month during his/her stay in addition to his/her salary in his/her parent institution. His/her board and lodging expenses and cost of research will be borne out by the host institution.

Last date of receiving the applications: 23rd Oct. 2017
